EMKOO

FOCUS ARRIVES EVERYWHERE  
DESPITE NO DECORATION

Aesthetic design of industry captures your deepest affections at glance

**This is EMKOO!**

EMKOO

# EMKOO

## FRONT GRILLE WITH RHYTHMIC LIGHTING EFFECT

Applying flat design style, the twelve bars on each side are arranged in a "V" shape and decorated with titanium-tungsten alloy strips, embodying exquisite craftsmanship. With the rhythmic lighting effect, EMKOO shows a stunning look.

## EYE OF ENLIGHTENMENT --- LED HEADLIGHTS

The matrix LED headlights are equipped with a new lighting unit, with a maximum thickness less than 20mm, and the total output of its low and high beams reaches 2650lm, 25% higher than that of the lens unit.

## LIGHTSABER-INSPIRED LED TAILLIGHTS

The four pieces of taillights are arranged vertically in an innovative way to form an X layout at the tail. With 126 LEDs embedded, the taillights also comes with music sync function.

## MECHA-STYLE SPOILER

The hollowed-out mecha-style spoiler at the top of the tail, with built-in light-emitting elements, echoes the lower backplate of the diffuser.

OVERSTEP THE NORM  
REDEFINE THE COZY

The interior design of oriental philosophy makes the cabin soothing and cozy

**This is EMKOO!**

## SUPER-SIZE TOUCH SCREEN

Great joy comes out of colorful display with three screens, touch screen, LCD instrument cluster, and Head-up Display (HUD).

## CRYSTAL ELECTRONIC GEAR SHIFTER

The design is inspired by the energy crystal, making the shifter looks futuristic and full of industrial vibe, and feels cool and refreshing. The original electronic dial shifter comes with better ergonomic design and is more convenient to operate. In every detail you can find futuristic design ingenuity.

# INTERIOR

## PANORAMIC SUNROOF (WITH ELECTRIC SUNSHADES) & DYNAMIC AMBIENT LIGHTS

The panoramic sunroof is equipped with electric sunshades, enabling you to enjoy stars and the coolness even in summer. The dynamic ambient lighting helps you get your tail up at any time.

# INTERIOR

## 1901mm ULTRA-WIDE BODYWORK

The wide shape embodies a stronger sense of movement, makes the driving more stable, and offers you a wider cabin space.

## 2750mm SUPER LONG WHEELBASE

Leg room is as long as 1059mm in the front seat, and 990mm in the rear seat, enabling you to stretch yourself at will.

## FLEXIBLE COMBINATION OF RIDING AND STORAGE SPACE

The passage in the rear seat is flat, the rear seats (with fold-down feature) are adjustable, and the capacity of trunk can be as high as 420L, making the space flexible and changeable and free stretching possible.

DO ON YOUR DEMAND  
VERSATILE ASSISTANT

The interactive intelligent cabin appreciates your demand in a blink of an eye

INTELLIGENT

# POWER

START THE ENGINE TO AWAKE  
YOUR ENERGY

MegaWave hybrid power Gives You a Leading Beginning

**This is EMKOO!**

### HIGH EFFICIENCY ATKINSON ENGINE FOR 2.0 ATK HEV

With the rated power of 103kW/6000rpm, the maximum torque of 180N·m/4500rpm, the thermal efficiency as high as 42.1%, and the acceleration from 0 to 60km/h of 3.9 seconds, EMKOO helps you to take the lead from the very beginning.

### GMC2.0 INTEGRATED DUAL-MOTOR MULTI-GEAR DHT

With the leading hybrid configuration, and the innovative integrated dual-motor parallel axis series-parallel DHT, the thermal efficiency utilization rate reaches 95.5%.

### DIRECT REFRIGERANT BATTERY

Direct refrigerant battery is introduced into the battery to realize cooling, which reduces energy consumption by 22.5% and improves cooling efficiency by 100% compared with liquid cooling technology. The battery is carried with low temperature self-heating technology.

### LEADING MEGAWAVE POWER HEV

EMKOO provides an intelligent switch between EV mode, series (extended range) mode and parallel mode, which helps to recover the energy.

### STRONG MEGAWAVE POWER 1.5 TGD I ENGINE & 7WDCT GOLDEN POWERTRAIN, GUARANTEES HIGH EFFICIENCY AND LOW FUEL CONSUMPTION.

The golden powertrain which consists of the 1.5 TGD I Megawave power engine & the 7WDCT transmission brings more driving pleasure. The maximum torque reaches up to 270N·m, and the maximum power up to 130kW. The fuel consumption is reduced by over 30%, while the comprehensive efficiency of the vehicle reaches as high as 96%, delivering better driving fun to you and saving more fuel for you.

# POWER

**SMOOTH AND STABLE HANDLING  
GUARANTEED BY ADVANCED TECHNOLOGIES.**

## **MEGASTAR CHASSIS**

The chassis is strong, smooth and stable. The two hydraulic suspensions -- front McPherson independent suspension, rear multi-link independent suspension, are equipped to cope with impact and residual vibration, making travel an easier task.

## **MOOSE TEST PASSED AT 78KM/H**

EMKOO is featured with excellent handling stability. With highly flexible and high-damping control arm bushing, and high-performance shock absorber valve system, the chassis is really good at reducing vibration.

# SAFETY

BORN STABLE  
IN ALL CONDITIONS

Safety technology, all-round protection

**This is EMKOO!**

### 6 SRS/CAB

Dual front SRS airbags, dual front side airbags, and integrated side curtain airbags. The side curtain airbags have the function of holding pressure for 6 seconds, which can better protect the head and shoulders under severe impact and rollover.

# SAFETY

### SAFETY CAGE-TYPE BODYWORK

Submarine hull-grade hot-formed steel with tensile strength of 1500MPa is used in key components such as A-pillar, B-pillar, door sill and middle passage. The proportion of ultra-high strength steel in the core skeleton of crew compartment reaches 100%, enabling the bodywork to withstand tough conditions.

### GAC COLLISION ENERGY ABSORPTION CONTROL TECHNOLOGY

High-tech force transmission path and structural design distribute the force and energy out of collision reasonably, effectively reduce occupant injury under various complex collisions. The vehicle passed the most stringent American NCAP rear crash test at 80km/h.

### ULTRA-WIDE 1340MM ANTI-COLLISION BEAM

The anti-collision beam covers over 70% of the vehicle width, which is strong enough to withstand various small-angle collisions.

### ELECTRONIC CHILD LOCK

The driver can control the child lock by one key. Once it is locked, the car door of the left seat in the second row can only be opened from outside, to prevent children from mis-operation.

### BOSCH INTEGRATED BRAKE CONTROL SYSTEM (ONEBOX)

EMKOO HEV comes with Bosch integrated power brake system (onebox), which decouples with a brake-by-wire system to make the brake pedal feels more responsive and sensitive, and the braking distance at 100 km/h as low as 36.34m. The system also lessens the nosedive situation when braking and realizes comfortable and seamless braking experience.
